Landscape painting, also known as landscape art, is the depiction of landscapes in art " natural scenery such as mountains, valleys, trees, rivers, and forests, especially where the main subject is a wide view " with its elements arranged into a coherent composition. In other works, landscape backgrounds for figures can still form an important part of the work.

Great article! Not only this post capture the big data market pretty well but it also talk about its future. Search combined with analytics can have a huge role in the coming years (bigger than the one highlighted in the landscape in my opinion).

Is Big Data Still a Thing? (The 2016 Big Data Landscape

Although primarily aimed at software architects and developers, the C4 model provides a way for software development teams to efficiently and effectively communicate their software architecture, at different levels of detail, telling different stories to different types of audience, when doing up front design or retrospectively documenting an existing codebase.
