1. The existing literature, whether in economics or in education science, has focused on educational outcomes rather than inputs and processes, and indeed on one type of

The impact of education quality on development goals

Market segmentation is the activity of dividing a broad consumer or business market, normally consisting of existing and potential customers, into sub-groups of consumers (known as segments) based on some type of shared characteristics. In dividing or segmenting markets, researchers typically look for common characteristics such as shared needs, common interests, similar lifestyles or even ...
